OBJECTIVE

Experienced Associate in Software Development, adept at full stack development & dedicated to contributing valuable insights and top-quality work to collaborative teams. Passionate about driving innovation and achieving organizational goals.

PROFESSIONAL EXPERIENCE

Cloud Associate, Niveus Solutions Pvt. Ltd

Mar 2023 - Present

- Developed and maintained the Bank Vendor Payment System project, Chatbot (GenAI) and currently engaged in the PMS and AIF Project.
- Built responsive web applications using React.js, JavaScript, TypeScript, Context API, React Hooks, Material UI, HTML5, CSS, and RESTful APIs.
- Utilized Crafter CMS, Axios for API calls, CryptoJS for encryption, and implemented JWT tokens for secure authentication.
- Managed version control with GIT and used JIRA for task management in an Agile (SCRUM) environment.
- Presented demos, addressed bugs, and maintained client communication through calls and emails.
- Provided post-deployment technical support to resolve residual issues.

Trainee Software Developer, Nicozn Technologies

Dec 2022 - Mar 2023

- Developed a full-stack website for iLand Spaces using PHP Laravel and Postgres.
 - Deployed the site on AWS Elastic Beanstalk and EC2 instances, enhancing system stability and performance.
 - Collaborated with front-end developers to integrate UI with backend functionalities.
 - Utilized AWS services to optimize data storage, reducing query time by 25%.
-
